

HKDA Young Dentists Group (YDG) – Continuing Education (CE) Course

Following their first joint lecture in April 2025, HKDA YDG is pleased to welcome back Dr John Yau and Dr Dominic Ho for a further Continuing Education course.

Date: 19 November 2026 (Thursday)

Time: 7:00 pm – 7:20 pm Registration
7:20 pm – 7:30 pm HKDA YDG Announcement
7:30 pm – 8:30 pm **Lecture I: “Hide-and-Seek: Mastering the Challenges of Impacted Teeth and Complex Orthodontic Biomechanics”**
by Dr John YAU, followed by Q&A
8:30 pm – 9:30 pm **Lecture II: “Prevention and Management of Peri-implant Disease”** by Dr Dominic HO, followed by Q&A

Venue: Center of Dental Education (CDE)
17/F, CEO Tower, 77 Wing Hong Street, Cheung Sha Wan, Kowloon
(Exit B, Lai Chi Kok Station – *approximately a 3-minute walk*)

Medium: English

Accreditation:	DCHK CPD points	2 (incl. 1 point Core CPD cat. V)
	CDSHK CME/CPD points	2 (Cat A)

Fee: **HK\$300** for HKDA Life members & Paid-up members
HK\$900 for Non-HKDA Members and Accompanying Persons.

Notes:

1. All registration fees are non-refundable and non-transferable.
2. The HKDA Council reserves the right of final decision on the admission of any persons.

Registration:

- ♦ **Pre-registration** is required for this Continuing Education event. Please register through the QR code or the [registration link](#), and submit the cheque payment to HKDA (payable to “Hong Kong Dental Association Limited”) on or before **5 November 2026 (Thursday)**.
- ♦ Seats are available on a **first-come, first-served basis**. Registration will **NOT** be accepted once the quota is reached.
- ♦ Successful registrants will be notified by email on **12-13 November 2026**.
- ♦ The maximum capacity is **130 persons**. Walk-in registration will generally not be accepted, but may be considered subject to seat availability onsite.
- ♦ Reserved seats will be held for **15 minutes** after the commencement of the lecture. Thereafter, unclaimed seats may be released to walk-in attendees, subject to seat availability.

Important Notes:

- ♦ Members are required to present their **membership cards (physical or digital) in person for membership verification, event admission and CPD/CME credits**.
- ♦ Priority will be given to attendees with membership cards (physical or digital). Attendees without membership cards may experience longer waiting times.
- ♦ Please note that attendees must sign in and attend the lecture in person to obtain CPD/CME credits. HKDA may report any failure to meet this requirement to the relevant administrator(s).

Certificate of Attendance:

- ♦ **No On-Site Certificates:** Certificates of Attendance will not be available at the registration desk.
- ♦ **Digital Access:** Members can log into their accounts on the HKDA website <https://hkdacpd.com/> to download their certificates of attendance **seven days after the event**.
- ♦ **Printed Certificate:** A HK\$200 administration fee will apply for the issuance of PRINTED certificate of attendance upon request. PRINTED certificates will be available for collection at HKDA Office or can be mailed upon request.
- ♦ **Non-HKDA members and Accompanying Persons:** For those who have fully settled the required fees, PRINTED certificate of attendance will be available for collection at HKDA office or by mail after the event.

Remarks:

- ♦ All opinions expressed during the lectures are those of the speakers and do not necessarily reflect the official viewpoints of HKDA.
- ♦ To uphold copyright regulations, private recording of the lecture is strictly prohibited.
- ♦ Members are encouraged to complete the evaluation forms by scanning the QR code available at the meeting venue.

Lecture I (7:30 pm – 8:30 pm)

Topic: **Lecture I: Hide-and-Seek: Mastering the Challenges of Impacted Teeth and Complex Orthodontic Biomechanics**

Speaker: **Dr John K. P. YAU**

BDS(HK) MOrth(HK) MOrthRCS(Edin) AdvDipOrth(HK) FCDSHK(Ortho)
FHKAM(Dental Surgery)

Dr. John Yau is a private orthodontist practicing in Hong Kong and serving as Honorary Clinical Assistant Professor in the Faculty of Dentistry, HKU. Dr. Yau completed his specialist training in The University of Hong Kong. He has been invited and delivered lectures and postgraduate workshops in Australia, China, Dubai, Hong Kong, Indonesia, Macau, Malaysia, Singapore, Taiwan and Thailand, including the 7th World Implant Orthodontic Conference in Dubai (2015), 10th Asia Pacific Orthodontic Conference in Bali (2016), 7th World Society of Lingual Orthodontics Congress in Bangkok (2017), and 10th World Implant Orthodontic Conference in Bali (2018), 14th Indonesian Association of Orthodontists Annual Meeting (2019), Association of Orthodontists (Singapore) Congress (2021 & 2025). In recent years, Dr. Yau has served the HKDA as a member of the scientific and organizing committees of HKIDEAS.

The fields of his clinical interests and research include versatile biomechanics with using temporary anchorage devices (TADs), soft tissue laser application, digital orthodontics, and surgery-first protocol. Dr Yau loves multiple sports, reading, acrylic painting and playing guitar.

Abstract: Join us for an engaging and interactive lecture designed specifically for the young dental practitioner. Moving beyond textbook theory, this session will utilize multiple clinical case examples to bridge the gap between diagnosis and successful execution. We will embark on a comprehensive journey covering treatment planning, appliance selection, and the biomechanical design required to manage complex cases—with a specific focus on the "hide-and-seek" nature of impacted teeth.

Key emphasis will be placed on risk assessment and patient expectation management. We will dissect the biological facts and scientific logic underpinning orthodontic tooth movement, ensuring that clinical decisions are grounded in sound rationale rather than anecdotal habit. The discussion will include a candid analysis of the pros and cons of various treatment modalities, pre-treatment success/failure assessment for impacted teeth, and essential retention protocols. Through interactive discussion, participants will gain practical insights into medical record keeping and the clinical skills necessary to navigate these challenging scenarios.

Lecture II (8:30 pm – 9:30 pm)

Topic: **Prevention and Management of Peri-implant Disease**
(Core CPD V - “Quality assurance including complaint handling & risk management”)

Speaker: **Dr HO King Lun, Dominic**
BDS(HK) MDS(Perio)(HK) AdvDipPeriodont(HK) MRD RCSEd (Perio)
FHKAM(Dental Surgery) FCDSHK(Periodontology) FDS RCSEd

Dr. Ho King Lun, Dominic graduated from the Faculty of Dentistry, University of Hong Kong in 2005 and continued to pursue his specialty training in Periodontology in 2006. He obtained his Master in Dental Surgery and Advanced Diploma in Periodontology in 2008 and 2009 respectively. He was later awarded a Fellowship in the College of Dental Surgeons of Hong Kong, Hong Kong Academy of Medicine (Dental Surgery), Royal College of Surgeons of Edinburgh, Royal College of Physicians and Surgeons of Glasgow, and Royal College of Surgeons of England. He is currently an Honorary Clinical Associate Professor in Periodontology and Implant Dentistry, HKU, an ITI Fellow, the Anchor ITI Study Club Director, and the Education Delegate of ITI Section Hong Kong & Macau.

Dominic is currently running randomized controlled clinical trials on the application of minimally invasive techniques on intra-bony defects and immediate implant placement protocols. He is also running his private practice, with a focus on the management of periodontitis-compromised patients, managing various periodontal and peri-implant complications.

Abstract: This seminar reviews current standards of practice and stand of care in implant therapy, focusing on the prevention and management of peri-implant disease. Key topics include risk management essentials, clinical and radiographic record-keeping protocols, and supportive maintenance strategies. Additionally, the session features case presentations to illustrate practical treatment approaches for managing peri-implant diseases.
