

AGM and Continuing Education Course of Estate Dentists Group (EDG)

Hong Kong Dental Association (HKDA) EDG is pleased to announce that the 39th Annual Group Meeting (AGM) and Continuing Education (CE) Course are scheduled to take place, with the details outlined as follows:

- Date:** Sunday, 13 December 2026
- Time:**
- 13:15 Registration
 - 13:40 Opening Speech by the Chairlady of HKDA EDG
 - 13:45 Lecture 1 by Dr Anita Chan
 - 14:45 Lecture 2 by Dr Anita Wong
 - 15:45 Start of EDG AGM (break of the CE Course)
 - 16:00 Lecture 3 by Dr Sarah Lai
 - 17:00 Lecture 4 by Dr Haston Liu
 - 18:00 End
- Venue:** Michelle, 2/F, Eaton HK, 380 Nathan Road, Kowloon, Hong Kong
(Exit B1, Jordan MTR Station)
- Medium:** English
- Accreditation:** DCHK CPD points 4 including 1 Core CPD point*
CDSHK CME/CPD points 4*
*(*The credit is pending confirmation.)*
- Fee^:** HK\$500 for HKDA Members
HK\$1,500 for Non-HKDA members
(^All registration fees are non-refundable. The HKDA Council reserves the right of final decision on the admission of any persons.)
- Registration and Payment:** Pre-registration with payment is required for the CE Course. To register, please either scan the QR code below or click this [link](#) to access online registration:

Remarks

- ✧ Admission is on a first-come, first-served basis.
- ✧ All reservations must be made by completing the Google form with a crossed cheque payable to “**Hong Kong Dental Association Ltd. Estate Dentists Group**” by **30 November 2026**. Payment is non-refundable. Incomplete registration may be automatically cancelled without prior notice.
- ✧ Successful registrants will be notified via email by **4 December 2026**.
- ✧ Reserved seats will be held for 15 minutes after the commencement of the first lecture and may thereafter be released to walk-in participants subject to on-site seat availability. In the event of no-shows, payments made will be processed as an administrative charge.
- ✧ Due to copyright issues, private lecture recording is strictly prohibited.
- ✧ All the opinions expressed in the lectures are those of the speakers and may not necessarily reflect the official standpoints of HKDA on such topics.
- ✧ Members are encouraged to complete the evaluation form by scanning the available QR code at the reception counter.
- ✧ Please be reminded that those who enrol in the CE Course are required to **sign in and attend the lectures in person to obtain CPD credits**. Those who do not fulfil this requirement will be denied CPD credits, and HKDA may report to the CPD administrator(s) concerned.

Arrangement for Distribution of Certificates of Attendance:

- ✧ Members could log in their accounts on the HKDA website to download the certificates of attendance 7 working days after the lecture. *(Please collect the manual for detailed instructions at the registration desk if necessary.)*
 - ✧ An administration fee of HK\$200 will be charged for the issuance of a PRINTED certificate of attendance upon member's request. All PRINTED certificates of attendance will be available for collection at the HKDA Office or by mail *(upon request)*.
 - ✧ For **non-HKDA members** who have fully settled the required fees, PRINTED certificates of attendance will be available for collection at the HKDA office or by mail after the lecture. *(Please provide the mailing address.)*
-

Lecture 1 (13:45-14:45)

Topic: Management and Prevention of Peri-implantitis

Speaker: Dr Anita Chan

Dr Chan is a Specialist in Periodontology. She graduated from The University of Hong Kong in 2009 and then obtained her Master's degree in Periodontology from HKU and her Membership in Periodontics from the Royal College of Surgeons of Edinburgh. After comprehensive higher training in advanced periodontal treatments, she acquired her Fellowship in Periodontology from The College of Dental Surgeons of Hong Kong and Hong Kong Academy of Medicine in 2018. Dr Chan is the Director of The Perio Clinic. She is specialized in Periodontology and is currently working as a Periodontist in private sector with her work solely in Periodontology and Implant Dentistry. She is also teaching in the Department of Periodontology and implant dentistry of The University of Hong Kong as an Honorary Clinical Assistant Professor. She is the Director of the ITI Study Club Women Implantology Network (WIN) Hong Kong. She is the Co-Chairlady of the Women Dentists Committee and Vice Chairlady of the Estate Dentists Group of Hong Kong Dental Association. Dr Chan has particular interest in the field of periodontal regenerative surgeries and mucogingival plastic surgeries.

Abstract:

This lecture provides a comprehensive overview of contemporary regenerative approaches in periodontology and implant dentistry. It reviews the biological principles of wound healing and examines the clinical application of regenerative materials, including bone grafts and barrier membranes. Evidence-based decision-making frameworks for treatment and prevention of peri-implant biological complications are also discussed. Surgical techniques and material selection based on defect morphology are highlighted. This lecture aims to equip clinicians with practical, evidence-based knowledge to improve regenerative outcomes around dental implants.

Lecture 2 (14:45-15:45)

Topic: Beyond Bruxism: Implementing Treatments for Patients with Temporomandibular Disorders

Speaker: Dr Anita Wong

*BDS (Syd), MDS (Pros), Adv Dip (Pros), MRD RCSEd,
FCDSHK (Pros), FHKAM (Dental Surgery)*

Dr Anita Wong graduated from The University of Sydney in year 1998. She was awarded a Master's degree by The University of Hong Kong in year 2003. Dr Wong had her prosthodontic training at The University of Hong Kong and became a registered specialist in Prosthodontics in year 2009. She was a part-time clinical lecturer at The University of Hong Kong since year 2004. Dr Wong has contributed to dental researches there since her prosthodontic training. Dr Wong is the President of The Hong Kong Society of Esthetic Dentistry since year 2023. She had her private practice with special interest in treatment of temporomandibular disorder and digital dentistry. Dr Wong is keen to utilise digital dentistry for her daily management and communication with interdisciplinary team for those patients with temporomandibular disorders and prosthodontic management.

Abstract:

In dental practice, patients presenting with orofacial pain are frequently diagnosed with sleep bruxism and treated primarily with dental appliances or related dental treatments. However, contemporary evidence demonstrates that temporomandibular disorders are complex, multifactorial conditions. Treating temporomandibular disorder purely as an occlusal or dental issue often fails to resolve the patient's pain and risks unnecessary, irreversible dental interventions. Dentists must expand their scope beyond tooth wear to recognize and manage the chronic orofacial pain in multidisciplinary approaches.

This presentation aims to provide general dentists with a practical, evidence-based roadmap to confidently screen and implement comprehensive treatment protocols in collaboration with multidisciplinary teams for patients with temporomandibular disorders.

Lecture 3 (16:00-17:00)

Topic: Common Dental Trauma in Children - Practical Management and Referral in Primary Care

Speaker: Dr Sarah Lai

Dr Sarah Lai is a Specialist in Paediatric Dentistry with over a decade of experience in clinical practice, education, and research. She began her dental career in Singapore, serving in public dental institutions and hospitals following her graduation from the National University of Singapore. Awarded a scholarship by the National Dental Centre

Singapore, she completed a Master of Dental Surgery in Paediatric Dentistry at The University of Hong Kong before returning to the National Dental Centre Singapore as an Associate Consultant. After relocating to Hong Kong, Dr Lai served as a Senior Clinical Practitioner at the Faculty of Dentistry, The University of Hong Kong. She is an accredited Specialist in Paediatric Dentistry with both the Singapore Dental Council and the Dental Council of Hong Kong, and holds the Tri-collegiate Diploma of Membership in Paediatric Dentistry from the Royal College of Surgeons of Edinburgh. Currently in private practice, Dr Lai continues to provide evidence-based dental care for children while serving as a part-time Clinical Lecturer at the Faculty of Dentistry, The University of Hong Kong. Her professional interests include preventive and minimal intervention dentistry, dental caries management, and improving oral health outcomes and quality of life for children.

Abstract:

Dental trauma is a common presentation in children, particularly during the primary and mixed dentition stages. Early recognition and timely intervention are crucial to optimise outcomes and minimise long-term complications affecting both primary and permanent dentition. General dental practitioners are frequently the first point of contact and play a key role in diagnosis, initial treatment, and referral decisions.

This presentation uses a practical case series to review common traumatic dental injuries in children, including crown fractures, luxation injuries, avulsion, and trauma affecting primary and permanent teeth. Clinical cases will illustrate key principles of assessment, radiographic evaluation, immediate management, and follow-up based on current guidelines.

Lecture 4 (17:00-18:00)

Topic: How Can We Stay Competitive or Stay Out of Complaints in the Post Covid Era?

Speaker: Dr Haston Liu

Co-Chairmen of Task Force on Private Healthcare Facilities Ordinance
of Hong Kong Dental Association
*BDS (HK), DGDGP (UK), PDipDS (HK), MGDS RCSEd,
FHKAM (Dental Surgery), FCDSHK (Fam Dent)*

Dr Haston Liu graduated with the Bachelor of Dental Surgery from The University of Hong Kong in 1988. He also obtained the Postgraduate Diploma in Dental Surgery from HKU and the Diploma in General Dental Practice from the Royal College of Surgeons of England in 1996. He acquired the Membership in General Dental Surgery from the Royal College of Surgeons of Edinburgh in 1997. He was further awarded the Fellowship of the Hong Kong Academy of Medicine (Dental Surgery) and the Fellowship of the College of Dental Surgeons of Hong Kong in the Specialty of Family Dentistry in 2003. Dr Liu has been the Past President of Hong Kong Dental Association. He is currently the Council Member and the Co-Chairman of the Task Force on Private Healthcare Facilities Ordinance of HKDA. He is also the Member of Complaints Committee (also a member of Preliminary Processing Panel) under the PHFO, Department of Health.

Dr Liu has interests in legislation, ethics, competences, and standards related to dental profession and the Public Private Partnership in dental services.

Abstract:

The Dental Ecosystem in Hong Kong has undergone substantial transformation in the post-COVID era. Cross-border marketing by mainland dental groups, alongside the transfer of public-private partnership programmes to non-governmental organisations (NGOs), has diverted a large volume of patients away from private practices, particularly small clinics. Dr Haston Liu will share his perspectives on these shifts. He will also draw on his personal experience to discuss with fellow practitioners how to maintain competitiveness within this landscape while mitigating regulatory and operational risks.
